

## Hot Dog Steamer Instructions

- 1) Remove the two lids from the top of the machine.
- 2) Remove the hot dog basket, bun basket, partitions, steam baffle, and juice pan.
- 3) Pour distilled water in to the bottom of the heating compartment until the water level is just below the ledge that the steam baffle rests on. Do not fill above the ledge as the cabinet will leak, and the hot dog buns will be sitting in water.

- 5) Place the hot dogs in the small basket, and the buns in the large basket.

- 6) Arrange the hot dogs and buns so that there is free circulation of steam.
- 7) Put the two lids back on the top of the machine.
- 8) Turn the On/Off switch to the "ON" position, and set the heat control knob to the desired temperature.
- 9) Keep the lids closed when not serving.
- 10) Add more water as necessary to maintain water level.
